TROX Malaysia Delivery Leadtime

Please note the following:
- All stated times for catalogue items are valid as from date of receipt of order and for specialised constructions or unclear orders as from date of clarification.
- The day of submission of order is not calculated in the advised delivery or despatch date
- Lead times for special constructions are subject to availability of material.
- Raw material availability will be based on first in first serve basis
- Please request current lead times for any special constructions.
- If products with varying delivery times are ordered, the longer delivery time is valid overall.

NOTE : The delivery leadtime commitment is based on 50 units only (JFM/JFD 24 modules) !

- For orders exceeding 50 modules per production group (except JFM is based on 24 modules), please contact us for detail
