Tan Hung General Hospital, Ho Chi Minh City, Vietnam, upgraded their facility by placing 2 outdoor X-Cube's on a balcony on the 12th floor. It is our first X-Cube project in Vietnam which provide an ideal quantity of fresh air to meet the hygiene requirements, also safeguarding the medical employee and patient's health is a matter of utmost importance to the facility.

The owner is satisfied with the TROX X-Cube innovative design and experience the inventive feature and intelligent function hence the owner decided to buy additional 3 sets of X-Cube for 2nd phase of the projects.
