Reference

Come September 2015, the University of Reading Malaysia will open its brand-new, purpose-built campus within the Iskandar Malaysia EduCity.

The campus is 40 minutes away from Singapore International Airport and just 20 minutes from Johor International Airport. Central Singapore is a 25-minute drive away via the Malaysia-Singapore Second Link. This state-of-the-art building has been designed to support and encourage the highest quality teaching and learning experience for our students and will feature:

- Multimedia teaching rooms equipped with state-of-the-art learning technology, from flexible lecture theatres to cafestyle classrooms
- Full wifi provision across the entirety of the campus
- Our flagship dealing room, the first of its kind in Malaysia, is equipped with all the latest trading technology giving it the feel of a real trading floor
- State-of-the-art laboratory facilities for pharmaceutical and biomedical sciences
- A modern Learning Resource Centre with increased access to resources in traditional and social learning environments
- A purpose-built moot court, equipped with the latest audiovisual facilities and seating for more than 200

Having closely cooperated with the M&E Consultant PCR Sdn Bhd and AECOM Malaysia, TROX was selected to supply 43 units of TVLK VAV with ELAB controller to control the fume hoods extract, 7 units of ELAB controller to control 7 supply air VAV and 5 units of ELAB controller with pressure transducer to control room pressure.

All these laboratory control products were supplied to ensure students and staff will have a safe and comfortable laboratory environment for learning and teaching. TROX also supplied the VAV for room temperature control to ensure high levels of comfort and energy saving.

TROX will also provide site testing and commissioning work for all the TROX supplied and mentioned laboratory control products by the first quarter of 2015.
