TROX Malaysia attended the BCI Asia Interior Design Awards as a gold sponsor. The inaugural IDA Singapore took place on the 4th May 2018 at the Conrad Centennial Singapore. This award sought to recognize great interior architectural designs that stand out aesthetically and functionally.

TROX Malaysia representatives, Mr. Max Missbichler together with Singapore sales representative, Mr. Melvin Thong, and Mr. Henry Tsang were provided the opportunity to showcase one of the TROX green products so as to share the TROX knowledge on green building practices and healthy indoor air with the guests. During the award dinner, Mr. Max Missbichler was invited to present the awards to the winners for their effort and creativity.

The evening proved to be a great success with a truly impressive range of projects and architects represented on the night.
